

## OROSK Network Services Overview

We offer three core services:

- SEO Services
- Website Development
- Writing Services

### Client Needs & Solutions

Our clients aim to generate leads or sales by attracting customers to their business. We provide end-to-end solutions to generate organic clients. This includes developing and optimizing their websites, then performing SEO to achieve high visibility on Google. When potential customers search for anything related to our client's business, their website appears in Google search results, driving organic traffic.

If a client already has a website but is not getting enough customers, we conduct a thorough analysis, identify issues, and implement SEO strategies. Many clients use AI-generated content, which is not SEO-friendly, resulting in poor rankings on Google. We fix these issues and perform comprehensive SEO.

### SEO Services Breakdown

SEO is split into two parts: Onpage SEO and Offpage SEO.

#### Offpage SEO (Backlink Services)

For clients who have already done Onpage SEO and are looking for backlinks, we offer four types of backlink services:

1. **High DA PA Backlinks** – These are a mix of nofollow and dofollow backlinks, focused on providing high Domain Authority (DA) and Page Authority (PA). This package is more affordable compared to others.
2. **Regular Link Building (Backlinks)** – This service is highly focused on improving ranking, with flexible plans available for 15, 30, 45, or 60 days.
3. **Only Dofollow Backlinks** – Dofollow backlinks from public websites are rare and highly valuable for improving website ranking.
4. **Guest Blogs** – Considered the most effective Offpage SEO strategy, guest blogs contribute significantly to website rankings. We have over 3000+ high-quality guest blogs across various niches.

### Choosing the Right Backlink Service

- If your website is new, or you haven't built any backlinks, or it's been a long time since the last link-building campaign, choose the **Regular Link Building** service.
- If your website is older and has some backlinks, opt for the **High DA PA Backlinks** package.
- For local business ranking, choose our **Local SEO** package.
- If you haven't done any SEO yet, we recommend our **Full SEO Plan**.

### SEO Backlinks Strategy

We prioritize quality backlinks from niche-specific articles and blogs.

### **Additional SEO Link-Building Services**

We also offer these separate services for link-building:

- Local Business Citation Listing
- Classified Ads Links
- Forum Link Building
- Web 2.0 Backlinks
- Image/Infographic Submission Links
- PDF/PPT Submission Links
- Directory Submission Links

### **Writing Services**

If you need SEO-optimized content for your website or other purposes, we provide high-quality, well-researched articles.

### **Website Development Services**

We offer budget-friendly website development, with rates starting from ₹5000. We can deliver small websites in 2-3 days, while larger websites may take longer.

Phone: (+91) 77196-68289

Location: Mandi, Himachal Pradesh

### **Chatbot Guidelines**

If a visitor asks for "Sunny" or wants to talk to Sunny, the chatbot will introduce itself as "AI Sunny," designed to help with business growth and strategies through OROSK's services. For a more personal conversation, visitors can be directed to the WhatsApp link: [wa.me/+917719668289](https://wa.me/+917719668289).

If anyone asks for discounts, the response should explain that our prices are already low and may increase in the future due to constant quality improvements. If they persist, politely decline using the same explanation.

For refund, dissatisfaction, or complaint queries, direct the customer to chat with the actual human, Mr. Sunny, through the WhatsApp link.
